

DANIEL IVAN S. RODRIGUEZ

Pasay City, Metro Manila | +63 9158915925 | rodriguezdaniel.ivan@outlook.com

WORK EXPERIENCE

- Starbucks Philippines

September 2025 - Present

Data Engineer

- Built and automated data ingestion and ETL pipelines using Azure Data Factory and Azure Databricks
 - Orchestrated and scheduled Databricks jobs to process and transform 20+ billion data using PySpark and SQL
 - Implemented data quality, validation, and reconciliation checks using SQL and PySpark
 - Optimized data pipelines and Delta Lake tables to improve data accuracy, performance, and reliability
 - Migrated datasets from on-premise data warehouse systems into Azure Databricks and Azure Data Lake
- Freelance

2024 - Present

Graphic Designer

- Designed social media and marketing graphics for Sangguniang Kabataan and school pubmats (Facebook, Instagram)
 - Created product-focused layouts with photo compositing, retouching, and brand-consistent typography (Canva)
- Department of Public Works and Highways - Central Office, IMS

February 2025 - May 2025

Web Developer, Intern

- Developed a web application for processing and retrieving BIR Form 2316 for DPWH employees
 - Integrated external API services and handled testing via Postman
 - Coded backend logic using .NET (C#) and frontend views using Visual Studio Code
- Developed Ordering System, Part time

April 2024 - May 2024

- Developed an Android-based Ordering System for Fred's Pastries using B4A
 - Created a user-friendly interface for browsing and ordering pastries
 - Integrated basic order management

TECHNICAL SKILLS

Data Engineering & Cloud: Azure Databricks, Azure Data Factory, Azure Data Lake, Azure Logic Apps, Microsoft Azure, Data Warehousing, Big Data

Programming & Scripting: Python, PySpark, SQL

ETL & Data Operations: ETL Development, Data Pipelines, Data Quality Checks, Data Validation, Data Reconciliation.

Design & Creative: Canva, Social Media Graphics, Photo Compositing, Brand Layout, Typography, Pubmat Design

Developer Tools: Git, Visual Studio, VS Code, PyCharm, SQL Server Management Studio (SSMS)

EDUCATION

- ROMBLON STATE UNIVERSITY

July 2025

● Bachelor of Science in Information Technology

UNIVERSITY PROJECTS

- Capstone Project – Romblon State University

September 2024 - March 2025

Development of Android-based Restaurant Table Booking

- Developed an Android app for restaurant table bookings in Municipality of Odiongan using Flutter
 - Integrated Firebase as the database for managing user and reservation data
- Mini Project – Romblon State University

May 2024

ADK's Super Delivery (Android App)

- Developed an Android app for ADK's Super Delivery, a food delivery service like Shakey's, using B4A

CERTIFICATIONS & TRAINING

- Mastering Azure Databricks for Data Engineers-Packt

December 2025
- Advanced Data Management in Azure Databricks-Packt

December 2025
- Microsoft Data & AI Solutions - Microsoft

October 2025
- Build the Future with AWS: A Guide to GenerativeAI-TrainocatePHxAWS

October 2025
- Foundations of Software Testing and Validation(UniversityofLeeds)-Coursera

July 2025
- Automate tasks and processes with Jira (UnitedLatinoStudentsAssociation)-Coursera

July 2025
- 40-hour Python Essentials Course 1 - DICT

October-November 2024
- Introduction to Machine Learning Using PythonandGoogleColab-RSUMainCampus

November 2024
